

ABC-CLIO and GREENWOOD

ESSENTIAL REFERENCE

ABC-CLIO is known as a provider of authoritative reference materials, written by experts and scholars, that shed light on topics of interest to students, teachers, and public library patrons. That excellence remains the cornerstone of the ABC-CLIO essential reference program, which is now comprised of two imprints:

- ABC-CLIO serves the history profession, history teachers, and students and scholars of history with a complete line of award-winning databases, books, and eBooks. It also provides social studies reference and curriculum resources for middle and high school and higher education libraries and classrooms
- Greenwood focuses on curriculum-related topics and current issues, including popular culture, GLBTQ, multicultural issues, and the American immigrant experience. The imprint's many award-winning titles range from in-depth, multi-volume encyclopedias to more concise handbooks, guides, and biographies

In bringing together the content base of Greenwood and the acclaimed ABC-CLIO reference program, ABC-CLIO now presents a wide range of high-quality reference scholarship across the curriculum for secondary schools and higher education institutions, as well as for use in public libraries. Together, ABC-CLIO and Greenwood books and electronic products have been recognized with laudatory reviews and awards from *Choice*, *Booklist*, *Library Journal*, the American Library Association, and other scholarly and professional organizations. Accessible to the general reader, the ABC-CLIO and Greenwood titles are also appropriate for the reference and circulation desks.

Moving forward, each imprint will retain its area of specialization, and both will continue to publish A-Z works in areas that make reference relevant today. Such works include Greenwood's acclaimed *Encyclopedia of Hair* and *Encyclopedia of Body Adornment*, which provide information on world cultures and customs through a look at popular culture, and ABC-CLIO's *Contemporary World Issues* series, which examines timely topics such as cybercrime, Web 2.0, and electronic censorship.

The ABC-CLIO and Greenwood reference imprints provide the foundational subject matter that is analyzed expertly in Praeger titles and presented in the company's databases. Further, Libraries Unlimited/Linworth helps librarians and teachers make the most of these reference resources with their students and patrons.

MORE

ABC-CLIO's digital resources present the reference material in myriad formats, in alignment with the company's 21st-century research philosophy.
