### ***Califone Launches Paging Horn for Improved School Communication***

*New paging horn allows for important indoor announcements to be broadcast outdoors*

SAN FERNANDO, Calif. (Aug. 17, 2010) – Helping to improve indoor and outdoor communication, *Califone* International, Inc., announces the launch of its new paging horn. With its rugged, all-weather design, the paging horn helps to ensure all messages are heard throughout the school year – wind, rain or shine.

Equipped with a steel bracket and three pre-drilled holes for secure installation, the paging horn can be easily mounted on the exterior of any school building. In addition, it features a multi-tap transformer with screwdriver-adjustable power taps and 100V and 70V modes.

“Particularly useful during severe weather and emergency response situations, the flexibility and durability of the paging horn allows districts to maintain communication in both indoor and outdoor school settings,” said Tim Ridgway, VP of marketing.

The Paging Horn (PHT15) is available for \$105, and comes with a one-year warranty for school use and service support available through authorized dealers nationwide. To order, contact a *Califone* dealer. For more information on the full line of *Califone* products, call 1-800-722-0500, or visit [www.califone.com](http://www.califone.com) to view and download the *Califone* catalog.

#### **About *Califone***

*Califone* was founded in 1947 and continues to be a leader in the design, development and manufacturing of audiovisual and supplemental curriculum products for use in education, presentation and professional markets. The company offers a complete line of audio solutions, wireless systems and multimedia products for small, medium and large presentation needs. *Califone* serves millions of educators and children in the PreK through higher education school environments, and has expanded to serve business and industry, houses of worship, parks and recreation, and other presentation markets as well.
