### **Califone® Technology Supports Learning Center Functionality**

*4-Position Mini Stereo Jackboxes Provide Portability and Versatility in Four Bright Colors*

SAN FERNANDO, Calif. (Feb. 28, 2007) – As the key to any listening center is the distribution point to the headphones, *Califone* International, Inc., offers the Mini Stereo Jackbox, now available in four fun colors: silver, blue, red and yellow.

The Mini Jackbox is designed for use in a listening center, or for those who may need additional reinforcement, including English language learners and special needs students. Each Mini Stereo Jackbox is made with ABS plastic for durability and silver-plated contact points for a solid, moisture-resistant connection. The product is configured with four output jacks, enabling the simultaneous use of multiple headphone sets, each with its own volume control for individual safety and comfort. As the world's smallest jackbox, the Mini Stereo Jackbox lends itself to optimal portability in the classroom.

With a one-year warranty and a rugged design that can withstand daily student use, each Mini Stereo Jackbox is \$11.00. The unique *Califone* warranty includes coverage for school, library and government use, a guarantee typically not available for products purchased from consumer electronics stores.

To order, contact a *Califone* dealer. For more information on the full line of *Califone* products that are designed for the education market and are safe for school and library use, call 1-800-722-0500, or visit [www.califone.com](http://www.califone.com) to view and download the entire *Califone* catalog.

#### **About Califone**

*Califone* was founded in 1947 and continues to be a leader in the design, development and manufacturing of audiovisual and supplemental curriculum products for use in education, presentation and professional markets. The company offers a complete line of audio solutions, wireless systems and multimedia products for small, medium and large presentation needs. *Califone* serves millions of educators and children in the PreK through higher education school environments and has expanded to serve business and industry, houses of worship, parks and recreation and other presentation markets as well.
