Key Curriculum Press Promotes Elizabeth DeCarli to Mathematics Product Manager

Emeryville, Calif. (Feb. 1, 2010) – Key Curriculum Press announces the promotion of Elizabeth DeCarli to Mathematics Product Manager. DeCarli, a former teacher and textbook editor, joins Key’s marketing department. She will manage the planning and promotion of Key’s innovative math textbook and technology product lines.

“Elizabeth’s experience as a developer, teacher, professional development provider, and technology coach gives her the rare combination of deep knowledge of our math products and a wide perspective on the market,” said Jim Ryan, Key’s Vice President of Marketing. “We know that her skills and judgment will further our position as the premier provider of inquiry-based math materials.”

DeCarli joined Key Curriculum Press as a Mathematics Development Editor in August 2004 and was promoted to Senior Editor in 2008 and to Managing Development Editor in 2009. In those roles, she worked on *Discovering Algebra*, *Discovering Geometry*, *Discovering Advanced Algebra*, and the *Teaching Algebra with The Geometer’s Sketchpad* online course.

Before joining Key, DeCarli taught math at James Logan High School, a large public high school in Union City, Calif. She served as a mathematics technology coach for two years, helping teachers integrate *The Geometer’s Sketchpad* into their geometry classrooms. Prior to teaching, she worked at Computer Curriculum Corp. as a Curriculum Programmer and Technical Specialist. She earned a bachelor’s of science in mathematical and computational sciences from Stanford University and a master’s degree in mathematics education and teaching credential from the University of California at Berkeley.

About Key Curriculum Press

Key Curriculum Press develops effective, high-quality mathematics and science educational materials. The company is a leading publisher of inquiry-based textbooks, software and supplemental materials for elementary, middle and high school students. In addition, Key Curriculum Press offers professional development workshops and online courses to provide mathematics and science educators with the training, experience and support they need to incorporate effective teaching strategies. The company was founded by mathematics educators in 1971 and is headquartered in Emeryville, Calif. For more information, visit www.keypress.com or phone 800-995-6284.
