### **About the CODiE Awards**

The CODiE Awards, originally called the Excellence in Software Awards, were established in 1986 by the Software Publishers Association (SPA), now the Software & Information Industry Association (SIIA), so that pioneers of the then-nascent software industry could evaluate and honor each other’s work. Since then, the CODiE Awards program has carried out the same purpose – to showcase the software and information industry’s finest products and services, and to honor excellence in corporate achievement. The CODiE Awards hold the distinction of being the industry’s only peer-reviewed awards program, which provides member companies with a unique opportunity to earn praise from their competitors. Now in its twenty-fifth year, the CODiE Awards program has raised the standard for excellence and serves as prestigious representation of outstanding achievement and vision in the software and information industry.

### **About SIIA**

The Software & Information Industry Association (SIIA) is the principal trade association for the software and digital content industries. SIIA provides global services in government relations, business development, corporate education, and intellectual property protection to 500 leading software and information companies. For more information, visit [www.sii.net](http://www.sii.net).

**About the SIIA Education Division**

SIIA's Education Division serves and represents more than 150 member companies that provide software, digital content and other technologies that address educational needs. The division shapes and supports the industry by providing leadership, advocacy, business development opportunities, and critical market information. SIIA provides a neutral business forum for its members to understand business models, technological advancements, market trends, and best practices. With the leadership of the Division Board and collaborative efforts with educators and other stakeholders, the division undertakes initiatives to enhance the use of educational technology and the overall success of SIIA members.
